

Good Morning,

We wanted to update everyone and let you know that we are all moved in to our new new 20,000 square foot showroom. So come on by and see everything that we have to offer. Our address is 11350 Space Blvd Orlando, Fl. 32837. We are having our official grand opening on Sunday September 29th 2013 from 11-2. We are going to have a car cruise tied into the grand opening as well with great oldies music as well as food vendors, 50/50 drawing, door prizes, and best of all some awesome cars to look at. We look forward to seeing everyone there and making new friends of Just Toys Classic Cars.

We have rolled out our classic car storage program with great success. There is nothing like this offered in the greater Orlando, Fl area right now. The only thing that is out there currently are the vast amount of u store it places where your only security is that gate that everyone runs when the person in front of them opens it. I mean who really wants to put there classic car, their baby, their pride and joy in a storage locker baking in the Florida sun that could end up on Storage Wars on the discovery channel if you don't pay on it. Then there are the places where you can just store it outside and watch it get covered in dirt, dust, and bird poop, and lord knows what else. We will offer security in our show room and give your real indoor storage and be able to show off your ride at the same time. Reservations are filling up quickly and space is limited to a first come, first serve basis so if this is something that you are interested in, please contact us today so we can get you set up. You do not have to live in the Orlando area to store your car with us. If you are a snow bird and only have your car down here for a few months at a time, we can work with that as well. We are very flexible and hate to say no, so give us every opportunity to say yes.

We are also accepting consignments for those of you that want to sell your car, but are tired of dealing with tire kickers, time thieves, and stokers on all of the auction sites, and just generally dealing with people that want to tell you just how over priced your car is. This is what we do for a living. We know how to price them to get the money that you want in your pocket and we deal with all the above mentioned type of people so you don't have to. You have better things to do with your day than to sit in front of the computer answering emails that never get replied, or taking calls from people saying that they are coming to look at your car so you set time out of your day to do that and they never show up. Let our professional years of experience go to work for you so you don't have to do it yourself.

We thank you for your time and reading this. We look forward to assisting you with all of your classic car needs. We are truly your one stop shop for all of your classic and muscle car needs.

Y'all take care,
J.R.
